Lowell said there are about 3 new bills that are out there. SB531 Is the one where anyone with any type of License will be able to install, repair or modify any component of an integrated security system excluding commercial fire or fire sprinkler system, without getting multiple licenses.

SB113 and HB1593 Are the ones that will give the commissioner of labor total control over everything at labor, but they were put on hold by the commissioner of labor this year. The commissioner of labor is the chair of a task force looking into all licenses and that report is due out Dec. 2017.

SJR 8 and SJR 22 are to make the commissioner of labor an appointed job, not an elected one. This will give the Governor total control, leaving out the Senate.

Ron also commented on what Lowell had said and info added comment on OKBFAA. All info should be on our web page.
