

Level 2 Locksmith Inaugural Class

OMLA has been working hard on a Level 2 Locksmith class that we are tentatively scheduled to teach on July 23. This all day class will be almost 100% hands on with no lecture except for instructions. It will include the following topics:

- ◆ **Advanced Picking and Impressioning**
- ◆ **Advanced Rekeying including Master Keying**
- ◆ **Installing and Rekeying a Kwikset Lock**
- ◆ **Installing and Rekeying a Kwikset SmartLock with Touchpad**

◆

Students will have a display allowing them to practice all of the above skills on various skill levels in addition to the new topics. Class will be between 6 and 8 hours with lunch included. This first run of the class will allow us to pace future classes. Fee for this class is \$200 paid to OMLA in advance, and \$100 paid to instructors for lab fees and supplies. All students will have a tool kit that they will be able to keep when leaving that will include:

Kwikset Knob and Deadbolt set

Kwikset Release Tool

Screwdriver

Tape Measure

Flashlight

Pinning Mat

Pinning Tweezer

Pinning set including case, Kwikset pins and Kwikset master pins, follower, shims, and springs

Come join us for the truly hands on experience. All skill levels welcome.
